

Social Responsibility Policy

Our company is committed to acting sustainably and making a positive contribution wherever it operates, through the following four pillars:

«Wherever we operate, we must ensure that social responsibility is fully integrated through effective partnership with local communities.»

François Perrodo
Chairman of Perenco

EDUCATION

- We promote access to knowledge and skills for everyone by supporting:
- School education and access to teaching resources.
 - Training for employability.
 - Awareness of major social issues.

HEALTH

- We contribute to the physical and mental well-being of our employees and local communities by taking action to:
- Provide access to preventive healthcare and treatment.
 - Improve working conditions.
 - Educate people about good health practices.

ENVIRONMENT AND BIODIVERSITY

- We are minimising our environmental impact and preserving ecosystems by committing to:
- Reducing our emissions and optimizing our energy consumption.
 - Managing natural resources sustainably.
 - Preserving and restoring local biodiversity.

STRUCTURAL CONTRIBUTIONS

- We invest in essential infrastructure and services to strengthen community autonomy through:
- The construction of sustainable community facilities.
 - The development of basic services.
 - Support for the local economy and employment.

«At Perenco, social responsibility is not an abstract concept: it translates into long-term commitments in the regions where we operate. We work alongside local communities and authorities to support sustainable projects, with the conviction that our presence must have a positive and measurable impact.»

Armel Simondin
Perenco's CEO
